WORLD OF RADIO HITLIST update May 22

Hi Glenn, My latest Hitlist update.
https://www.w4uvh.net/hitlist.htm

1) ~Aggregator - World Radio Network: Updated links to point to new A-25 Schedules
2) Switzerland - R Gloria: Added new entry for station (sharing {Luxembourg} SW transmitter with R Onda)
3) Taiwan - R Taiwan Int: Updated link to new programme schedule

The next update is scheduled for early July.
Best wishes and 73, Alan Roe

** ANTARCTICA. On May 26 I have sent this inquiry to Adrián Korol of RAE: ``Todavía esperamos señales en 15476 de LRA36; parece que no aparezca en 2025. ¿Puede informarnos qué pasa, por qué se demora, o nunca más? Gracias, Glenn Hauser, World of Radio`` (Glenn Hauser, OK, WOR)

``We are still awaiting signals on 15476 from LRA36; it seems not to be appearing in 2025. Could you inform us what is happening, why the delay, or never again? Thanks, Glenn Hauser``

His reply - translation below:

``Hola Glenn. Gracias por tu correo ante todo. Lamentablemente el equipo de 15476 USB (Collins HF80 sufrió un desperfecto no reparable en Antártida y fue replegado para su reparación a la planta de RADIO NACIONAL en Pacheco. Asimismo la s Fuerzas Armadas han conseguido un equipo similar que también fue trasladado hacia Pacheco. Los técnicos de Pacheco han comenzado tareas de reparación y ajuste para dejar operativo al menos a uno de esos dos equipos para LRA36. Por cuestiones meteorológicas ya no es posible el transporte desde Pacheco a LRA36 hasta octubre próximo. Hasta entonces confíamos en reparar el equipó transmisor y realizar emisiones de prueba desde Pacheco. Iremos informando novedades en los próximos meses.

Por otro lado LRA36 se mantiene con su programa Sonidos de La Antártida los días sábados , desde este pasado sábado 24 por streaming en la web de RAE y Radio Nacional. El programa aunque por Streaming se origina en LRA36.

Mensajes en redes sociales de LRA36 especialmente en Facebook e Instagram Solicitando el pronto regreso de LRA 36 a la onda corta será una bienvenida señal de apoyo para consolidar y priorizar la vuelta a 15476.

Quedo a disposición
73 Adrián``

Hi Glenn. Thanks for your email first of all. Unfortunately, the 15476 USB (Collins HF80) equipment suffered an unrepairable fault in Antarctica and was returned to the RADIO NACIONAL plant in Pacheco for repairs. The Armed Forces have also obtained similar equipment, which was also transported to Pacheco. Pacheco technicians have begun repair and adjustment work to ensure that at least one of these two devices is operational for LRA36. Due to weather conditions, transport from Pacheco to LRA36 is no longer possible until next October. Until then, we hope to repair the transmitter equipment and conduct test broadcasts from Pacheco. We will provide updates in the coming months.

On the other hand, LRA36 continues to broadcast its program Sonidos de La Antártida on Saturdays, starting this past Saturday the 24th, via streaming on the RAE website and Radio Nacional. The program, although streaming, originates from LRA36.

Messages on social media from LRA36, especially on Facebook and Instagram, requesting the LRA 36's prompt return to shortwave will be a welcome sign of support to consolidate and prioritize the return to 15476.

I remain at your disposal. 73 Adrián``

Reply on the WOR iog: ``Never saw anything about the big announcement from 2023 again, so this plan got the chainsaw if it was ever realistic at all?
https://swling.com/blog/2023/09/radio-nacional-arcangel-san-gabriel-receives-a-new-shortwave-transmitter/
And there may be some people who still wonder if they just find no one to produce stuff in German or have done with that language. Kai Ludwig`` (Glenn Hauser, OK, WOR)

** ASCENSION. 21645, May 25 at 1433, JBA S2/S3 in unID lang and the OSOB. Would you believe that EiBi as of May 17 lists nothing between 21630 & 21660? Aoki is ahead in this case as of May 24: BBC Hausa via ASC at 1300-1700 on day 7 only = Saturday for Aoki, but this is day 1 = Sunday, while for EiBi, day 1 = Monday! HFCC also has it for entire A25 season, on day 7 = Saturday. HFCC file does not explicitly state their days-of-week scheme, but numerous entries as 17 surely mean Sunday & Saturday rather than Monday and Sunday. But there are some as 135, which would mean Sun/Tue/Thu rather than the more likely M/W/F. I wonder if some HFCC registrants are just as confused about days of week, entering them wrongly. It sure would be nice if all three major references would agree on a single same DOW enumeration. At 1530, 21645 also audible into UTwente, sounds like coverage of a silly ballgame; which might account for being active on Sunday, not just Saturday (Glenn Hauser, OK, WOR)

** BRAZIL. I hadn`t tried to hear the token English from RNB/RNA lately, but after someone reported the entire 10 minutes was in English, not half Spanish, I check again UT Tue May 27 via ``local`` remote in ``Brasila``, where the two signals are not strong at all, unseem local, 6180 & 11780. At 0150 English introduxion of interview with the Secretary of Culture, Pará state, leading up to a UN conference on climate change, November, in Belém. Seems to be a repeat; 0154 IDs and switch to Spanish saying this is part 4 of that. Enough, already (Glenn Hauser, OK, WOR)

** CANADA [and non]. 800, May 22 at 0629 UT `Coast to Coast AM`, ID for CKLW - it`s about equal level to KQCV OKC on E/W longwire. Normally hear no CKLW at all. Radio-locator shows day pattern has more of a lobe to the SW of Windsor, but night pattern is not notched either. Very different patterns for CKLW in NRC Pattern Book of 2013y: huge major lobe to NNE day and night; secondary lobe night to east and minor lobes including to SW. Still no XEERG noise. CKLW website says C2CAM is at 1-5 am, in one spot, but 5-9 am in another! Apparently partially auto-reading my computer clock which is on UT not EDT. Wonder if they have other unCanadian shows? TED Radio Hour. Radio-locator shows address for CKLW in Toronto! (Glenn Hauser, OK, WOR)

** CANADA. 28153 CW, May 25 at 0148, VVV DE VE3IDS/B. WGB list: ``28153.0 VE3IDS/B - Owen Sound ON CAN EN94ll - #0/2 (17 Apr 2025) Note: ID + grid + 10" off power 5w`` - QRZ.com: ``VE3IDS Canada flag Canada, Donald B Richards, 137064 Conc 7, Owen Sound, ON N4K 5N5, Canada - 2024 June: I have put a 10 metre beacon on the air. It is on

28.153 at 5 watts to a 110' doublet at 40' AGL. The rig is a radio shack htx 100.
Please email reception reports to ve3ids.don@gmail.com 72/73, Don ve3ids`` (Glenn Hauser, OK, WOR)

** CANADA. 28193 CW, May 28 at 2203, VVV DE VE4ARM/B ... E x 17. WGB list: ``28193.0 VE4ARM/B - Manitoba Amateur Radio Museum - Austin MB CAN EN09mw - #0 (31 Mar 2025) Note: VVV de ID + grid + E × 16 - Pwr 5w`` - must be sporadic E; hardly anything else on 10, 12 or 14m bands (Glenn Hauser, OK, WOR)

** CHINA [non]. 9580, May 25 at 0204, CRI relay via CUBA S9+30/40 but suptorted, just barely modulated. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CHINA [and non]. 11760, May 27 at 2225, S8/S9 of Chinese music with flutter, i.e. CRI Portuguese service from Xianyang site this hour only which of course is nothing but fill music, like used to be at 23+ UT via Cuba 13650. Today however at 2345 check into Georgia SDR, 13650 is in suptorted English presumably CRI via Cuba, -2400*. As for 11760, RHC is never heard anymore on its #1 legacy frequency (Glenn Hauser, OK, WOR)

** CUBA. 6000, May 25 at 0202, RHC S9+20/30 but suptorted such that I can`t be sure whether in English or Spanish. Something`s always wrong at RHC. Why do they bother? (Glenn Hauser, OK, WOR) see too unID 6000

** CUBA. 15230, May 27 at 2225, S9/+10 of suptorted music, probably RHC Portuguese service, where something is always wrong. Likewise 24h later (Glenn Hauser, OK, WOR) see also CHINA [and non]

** EAST TURKISTAN. 17655, May 26 at 0224, S Asian language at S9/+10 direct; only stronger signal on band is 17675 NZ. EiBi shows CRI Kashgar in Tamil this hour, then another hour in Hindi (Glenn Hauser, OK, WOR)

** GUATEMALA. 21365 USB, May 27 at 2220, TG9AHM, Guatemala City, calling CQDX in English. In very quick bandscan seems OSOB, nor anything on 12 or 10 m. This must be sporadic E on an MUF far below FM band. QRZ.com: ``TG9AHM Guatemala flag Guatemala, EMMANUEL H. MIERES G. (Manny), 19 CALLE 10-38 ZONA 11 COL. MARISCAL, BOSQUES DE MARISCAL, CIUDAD DE GUATEMALA 01011, Guatemala``. I previously logged him March 6, 2015 on 28500; and April 25, 2025 on 24985; a tri-bander (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 17675, May 22 at 0558, tune-in just in time to hear QSY notice to retune to 11725, and off*. So I do; 11725 in about a minute *0559, stronger S9+20/30 here, says RNZ International - not ``Pacific``, is turning over to BBC for the next halfhour. QSY made as Bell Bird IS was playing; on 11725 I could hear a JBA echo as if reel-to-reel tape print-thru. She got it right, while own How To Listen websked claims from 0559 it`s on 13690 only! No, not both this time (Glenn Hauser, OK, WORLD OF RADIO 2296)

** NORTH AMERICA. Five pirates at once, Saturday night = UT Sunday May 25 0155-0200; I heard no IDs or other announcements, but HFU tells us:

6965 USB, S9+20/30 music: Drunken DJ radio, but SSTVs showing other names, Osiris Radio, and Crater Eddie Radio, playlists: https://www.hfunderground.com/board/index.php/topic,145502.0.html

6950 USB, S9+20/30 music. Many reports as unID: https://www.hfunderground.com/board/index.php/topic,145507.0.html

6935 USB, S9+10 music, the weakest, 77LJS, which means what?:
https://www.hfunderground.com/board/index.php/topic,145504.0.html

6925 USB, S9+10/20 percussive music, WTF Worldwide:
https://www.hfunderground.com/board/index.php/topic,145508.0.html

6849.9 AM, S9+20 music, Liquid Radio, ``6850``:
https://www.hfunderground.com/board/index.php/topic,145501.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, May 26 at 0548, Station YHWH is on and JBA, slightly better with Josiah`s thin voice audible if not understandable, at 0611 (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1210 kHz, May 26 at 0220 UT, string of PSAs overcoming high storm noise level; must be KGYN Guymon again failing to activate DA protecting Philadelphia; yes, soon ID in passing as ``the 5-state big talker, KGYN`` (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1600 kHz, Mon May 26 at 2213 UT, talking about flowers in the Sonoran desert -- and 2214 outro `National Native News` from Koahnic Broadcasting, with CPB funding. At daytime this is KUSH Cushing, a commercial station. NNN is mostly on public radio stations, and its affiliate list misses KUSH in OK, just the KCCU, KGOU stations, and KCNP of the Chickasaw.
https://www.nv1.org/stations-affiliates/oklahoma/

It originates at KUNM in Albuquerque, but produced by Koahnic Broadcast Corporation, which is in Anchorage, Alaska. Quite a variety of programming, but can`t find a plain old program schedule:
https://www.1600kush.com/onair/native-air-with-hugh-foley
This outdated page does not say when Native Air airs, nor refer to NNN, but, with linx to each: ``Tribes in the KUSH Listening Area: Sac and Fox Nation, Pawnee Nation, Muscogee (Creek) Nation, Iowa Tribe of OK, Osage Nation, Citizen Potawatomi Nation, Cherokee Nation, Absentee Shawnee, Otoe-Missouria Tribe, Ponca Tribe, Kickapoo Tribe of OK``

At night, KATZ St Louis owns 1600 here, if not KEPN CO, but KUSH, U1 70 watts at night, made it to Terry L Krueger, NW FL: ``1600 OKLAHOMA KUSH, Cushing 1031 30 APR 2025 Real C&W, Americana, Bluegrass vocals. Man "You're listening to The Kush, 1600... and 101 point 5 FM, Cushing, Oklahoma..." Very nice level on occasional peaks. Surprised to catch an Oklahoman on 1600. First time log`` (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 95.5, May 28 circa 1700 & 1900 UT, low-power pirate music still going, some hum and just barely modulated but $tereo pilot on, peaking circa intersexion of Cleveland and Garriott in Enid (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 95.7, May 25, KXLS Lahoma = really Enid, ID as ``The new Mix 95-7``. Had been ``My 95.7`` per WTFDA FM DB (Glenn Hauser, Enid, WOR)

** PERU [and non]. 28435 USB, May 23 at 2205, Spanish but English ID fonetikaly as OA4DAG. QRZ.com: ``OA4DAG Peru flag Peru, Luis Alberto "Lucho" de Azambuja Gonzales, Pimentel 337 Punta Hermosa, Lima 15845, Peru. I live in Punta Hermosa, a beach town located 50 KM from Lima. I love speaking on the radio and going fishing! QAP, QRV!``

28445 USB, May 23 at 2207, starts English but switch to Spanish by OA4BUO, contacting TI4OVR, who was weakerly audible. 450 watts, Antonio from Lima. Took several tries to copy his too-fast call. QRZ.com: ``OA4BUO Peru flag Peru, Antonio M. Helfer Arguedas, Av. Del Aire # 558, La Victoria 15034, Peru`` - ``TI4OVR Costa Rica flag Costa

Rica, TEL 50688711977, Oscar Viquez, Heredia, Costa Rica``

First I found no beacons audible on 10m, but phone USB unID Spanish as low as 28315 at 2202, refer to ``once metros`` (Glenn Hauser, OK, WOR)

** PHILIPPINES [non]. 7178 LSB, May 26 at 0613, QSO in strange language, sounds like Tagalog? Fortunately they eventually ID with fonetix in English, also expressions such as ``go ahead; how copy?``. VE6TY with KC6HFF. QRZ.com: ``VE6TY Canada flag Canada, Jerre Bon "JB" Manlangit, Calgary, AB T1Y6Y3, Canada`` - also shows contact with KC6HFF on 40m, Ireneo G Amable, dated 2025-03-03.

``KC6HFF USA flag USA, IRENEO G AMABLE, 12500 S KEYPORT RD NE, POULSBO, WA 98370, USA - Just call me (Ernie) PRIMARY STATION - KC6HFF/7, POULSBO, WASHINGTON. SECONDARY STATION -DU6/KC6HFF, CABOLO-AN NORTE, OTON, ILOILO, PHILIPPINES`` Poulsbo is just NW of Seattle, halfway to Leland, ATCF (Glenn Hauser, OK, WOR)

** PHILIPPINES. 12095, May 27 at 2226, ``Jesus Saves`` music box IS, S5/S9 direct, i.e. FEBC Bocaue site about to open Hmong. Does JC understand today`s Hmong? (Glenn Hauser, OK, WOR)

** ROMANIA. 15130, May 25 at 0209, RRI in Spanish S9, but *much* stronger S9+30/40 on // 11820, SSOB (Glenn Hauser, OK, WOR)

** SPAIN. 15500, 17715, 15520, 15390, Fri May 23 at 2200, all 4 token English SNR frequencies are on; could not understand the opening preview. 2201 news starting with foreign minister meeting with Rubio in Washington. 2212 interview lamenting scientific research now being discouraged in USA, e.g. about water resources (Glenn Hauser, OK, WOR)

** SPAIN. 17715, Sun May 25 at 1435, no signal direct from REE which is supposed to start at 1400 on Sat & Sun for SAm. Others are on: 15500 NAm S3/S4, 15520 ME JBA carrier, 15390 Af JJBBA carrier. 17715 may well be on but not propagating in VP condx. By 1538 check into UTwente, 17715.013 is certainly on, S9+10/15. This one is further off-frequency than the others: 15520.001, 15500.001, 15389.991 (Glenn Hauser, OK, WOR)

** SPAIN. 15500, 15520, 15390, 17715, Mon May 26 at 2158, all four RNEs on air, but quick check shows the three 15s are in three different programs. EiBi shows until 2200 days 135 = MWF, 15390 Arabic, 15500 Sefardi, 15520 Russian - yes, the latter on ME beam since that`s the closest they can get to Russia! At 2200 they all merge for SFR English with a preview, 2201 news leading with at least 57 killed in Gaza last night. 2210 something about popular stories, humorous comix (Glenn Hauser, OK, WOR)

** SPAIN. 17715 S9+20/30, 15500 S9+20/30, 15520 S9/+10 and 15390 S8/S9 direct, May 27 at 2222, nice music from REE on a Sephardic Tuesday instead of English M/W/F, well worth hearing too (Glenn Hauser, OK, WOR)

** SPAIN. 17715 S9+20/30, 15500 S9+10/20, 15520 S9/+10, 15390 S8/S9, Wed May 28 at 2200, token English from SNR, axually slightly stronger direct on 17715 for SAm than 15500 for NAm, preview topix about migration, and flamenco fest in London 20th anniversary. 2201 news leads with people killed in Canary capsizing; cause of blackout still unknown. 2207 interviewing authority about migration, lamenting anti-migrant sentiments led by Trump, as we are all immigrants or their descendants. Most welcoming toward them is Germany and to a lessening extent, Canada (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004, May 23 at 2158, VOT not off the air, but JBA

direct. Into UTwente at 2242 when measured during music, S9+5/15. 2243 `Did You Know That?` with Efsun the axentuated, about a Turkish town near the Italian border for 300 years. 2251 multi-lingual ID filler reel. 2253 s/off as if 1230 on 17620, awry at Ankara. 2254 IS a sesquitime of the opening notes and chopoff.

Note: earlier on May 23, JRX in Brasil heard VOT English on 9465 at 0300, new frequency. I suspect they failed to QSY after the -0300 Uighur service; need to check whether both of the original frequencies still be on, 7275 and 6165 (Glenn Hauser, OK, WOR)

** TURKEY. 9465, May 24 at 0337, NO signal from VOT into UTwente, but English as usual on 7275.017+ S9+15/25 thisaway and 6165.003+ S7/9+5 thataway. Checking since 24 hours earlier, JRX in Brasil heard VOT English on 9465. This was another case of erroneous Emirler failing to change frequency after the 0200-0300 Uighur service on 9465 (Glenn Hauser, OK, WOR)

** TURKEY. 11785.006+, May 24 at 2212, VOT English not off the air, S9+25/30 into UTwente, but no time to listen (Glenn Hauser, OK, WOR)

** TURKEY. 9875.017+, Sun May 25 at 2054, VOT is just ending `The Pulse of Turkish Foreign Policy`, S9+20/30 into UTwente; 2058 TRTVOTVorld.com promo, which is in 41 languages, music. 2101 finally start `The Letterbox Programmme` later than usual. Hostess says it`s time for her monthly report to the program? department about correspondence. 1) Andre Sirani? Canada. 2) Mohammed --, Malaysia but thought I heard Breyel mentioned. 3) Siddartha --, India, with usual query, does Turkey observe World Hemophilia Day on April 17? Yes, but I bet most don`t know it! 4) -- Henke?, Germany, tnx for last week helping try to QSL R. Bayrak, TRNC. 5) ?, Canada, postal strike so will hold QSL till OK to send; QRM de RNA 11780. 6) Jayanta Chakroborty, New Delhi, India = last one. Letterbox is 2nd most popular program after Turkish music. 2114 Cemre closes, going to visit Black Sea coast?, theme and no other music insert this time.

Good thing I got it on 9875, as a sesquihour later, at 2230, the next broadcast on 11785 is AWOL! Something`s always erroneous at Emirler. Furthermore, the 03 final repeat also missing at 0321 May 26 check into NH SDR: No 7275, 6165 nor accidentalternate 9465.

BTW, TURKEY BANNED VOA ALREADY IN 2022 --- perhaps the least we can do is boycott VOT now and tell them so. See this report via David Cole: https://www.dw.com/en/us-public-media-shutdown-hits-harder-in-turkey/a-72661761 VOT anyway admits it doesn`t report any hard news about Turkey itself! Of course the Voice of Trump should now be banned, everywhere (Glenn Hauser, OK, WOR)

** TURKEY. 11785, May 26 at 2157, VOT not off the air, JBA IS & English ID direct. At 2256 I tune in UTwente just in time to hear VG carrier cut off* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.003-, May 27 at 2215, VOT not off the air but JBA carrier direct; 2251 into UTwente when measured, S9/+15, in 2-minute multi-lingual ID filler reel; 2252 s/off as if 1230 on 17620, awry in Ankara; first notes of IS only twice until chop at 2253*, no finesse (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004, May 28 at 2159, JBA carrier direct from not off the air VOT. Into UTwente at 2251 when measured, S9+25/35 amid multi-lingual ID filler reel; 2253 s/off as if it`s 1230 on 17620, awry at Ankara; 2254 IS first notes a sesquitime, erroneous at Emirler (Glenn Hauser, OK, WOR)

** U K O G B A N I. 13810, May 22 at 0602, French but one speaker with

heavy African? accent, S5/S7, the SSOB. EiBi shows it`s BBC via Woofferton to N Africa at 0600-0629 (Glenn Hauser, OK, WOR)

** U S A. 28281 CW, May 25 at 0149, DE AG8Y/B. WGB list: ``28281.0 AG8Y/B - Middletown OH USA EM79tl - #0/1 (08 Apr 2025) Note: de AG8Y/B - Pwr 7.5w - Ex W8EH`` - QRZ.com: ``AG8Y USA flag USA, ERNEST W HOWARD JR, CITY RADIO CLUB, 401 Eastline Dr, Middletown, OH 45044, USA - Station AG8Y is the club station for the City Radio Club of Middletown Ohio. We have a 10 meter beacon on 28.281 with the AG8Y call. Previously it identified as W8EH. The beacon is running 7 to 8 watts to a Cushcraft Ringo about 15' above ground, at 860' elevation. We do not have any QSL cards for the beacon, so we unable to respond to mailed QSL requests. 73 Ernie W8EH, AG8Y License Trustee``

28297 CW, May 25 at 0151, EEEE DE NS9RC EN62. WGB list: ``28297.0 NS9RC - Highland Park IL USA EN62be - #0 (08 Apr 2025) Note: de ID + grid EEE - Half wave vertical pwr 5w - North Shore Radio Club`` - QRZ.com: ``NS9RC USA flag USA, Rob W Orr, NORTH SHORE RADIO CLUB INC, PO BOX 1066, Highland Park, IL 60035, USA -- Our website is: https://ns9rc.org -- Propagation Beacons: To help discover band openings, the NSRC has operated a propagation beacon on 28.297 MHz since 2001. It is located at the Heller Nature Center in Highland Park, IL about 27 miles north of downtown Chicago. The beacon was built from a Radio Shack HTX-100 running 5 watts to a Cushcraft AR-10 half wave vertical. CW message keying is performed by an Ultimate PicoKeyer. The 10M band is open a lot more than you may think, even during periods of low sunspot activity, so be sure to check the beacon section of the band between 28.200 and 28.300 regularly, you may be pleasantly surprised with what you hear. Over the years we have received reception reports from over 30 countries and every continent except Antarctica`` (Glenn Hauser, OK, WOR)

** U S A [and non]. Glenn, I got the news just now at 1622 UT, it (shortwave from the VOA) is over. All PSC are fired. A manager is on his way to Kuwait to oversee the shutdown of that station and as I understand it de-commissioning. There will be some folks left to oversee the shutdown of Greenville. What has happened is, in Trump`s big, beautiful bill, all funding for the USAGM has been removed. No money, no shortwave or anything for that matter. I think I`m gonna drink today. Glenn W7GS/8 (ex-Greenville)(via Glenn Hauser, WOR)

** U S A [and non]. WORLD OF RADIO 2295 monitoring: missed checking UT Thu May 22 at 0130 on WRMI 5010; anyone hear it?

Confirmed Thursday May 22 from 1631 on SW Radio, Germany, 6160.000+, S9/+10 into UTwente. No ACI or CCI. 3975 not yet on.

WORLD OF RADIO 2296 contents: (Ascension), Australia, (Belgium non), Brasil, Cuba and non, Guam non, Indonesia, Japan, Korea North and non, Korea South non, Luxembourg, (Madagascar), Marshall Islands, Moldova, Myanmar, New Zealand, (Norfolk Island), North America, Oklahoma, Spain, (Switzerland non), Turkey, Ukraine, UK and non, USA, (Uzbekistan), (Vatican); propagation outlook - (countries mentioned with others not in order)

Thanks this week for generous financial support from Doug Brown, a generous check on a US bank to Glenn Hauser, P O Box 1684, Enid OK 73702 USA: ``Greetings from London ON. Thanks, Glenn for all you do to keep our great hobby alive. Best Regards & 73s``

One may also contribute via PayPal, not necessarily in US funds, to woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2296 monitoring: not confirmed Friday May 23 after 1310 the 1300 on WRMI 15770: VP propagation so JBA direct, and also JBA into UTwente and some eastern USA remotes. Cannot perceive any modulation. Dean Bonanno informs me:

``Hello Mr. Hauser, I figured I would let you know that WOR did not air May 23, 2025 at 1300 UTC on WRMI 15770, per the WRMI schedule. After the broadcast in the 1200 UTC hour ended around 1259, only a carrier could be detected. The program following WOR at 1330 was also not heard, just a carrier. At 1400, normal programming resumed at regular signal strength. 73 - Dean Bonanno, Durham, CT``

``Sorry, I just found that we had a problem with System D this morning. The transmitter on 15770 was fine, but the System D audio computer failed and did not play the program at 1300. We got it working later. Jeff White, General Manager
WRMI Radio Miami International``

Confirmed Friday May 23 at 2030 on IRRS SW via AM Italia, 1322.995+, S8.5 into UTwente; also on WRMI webcast only.

Also confirmed Friday May 23 at 2211 the 2200 on WRMI 9955, S9+20 direct but JBA seems undermod; yet into Georgia remote at 2225, it`s VG S9+30.

Also confirmed Friday May 23 at 2233 the 2231 on SW Radio, Germany, 3975.002+, S9+15 into UTwente. Next:

0300 UT Saturday WTWW 5085 [sometimes; still on at 0215];

(Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2296 monitoring: confirmed for the second week in a row, UT Saturday May 24 at 0300 on WTWW 5085, S9+40/45 direct. And again automation clipped together: ``You are listening to the ministry of / Glenn Hauser with World of Radio 2296...``. Music fill at 0329-0331.5* with no announcements.

Also confirmed Saturday May 24 at 1448 the 1430 on SW Radio, Germany, 6160.001+, S9 into UTwente.

Also confirmed Saturday May 24 at 1600 on WRN North America stream.

Also confirmed Saturday May 24 at 1730 on SW Radio, Germany, 6160.001-, S8.5/9+5 and 3975.001+, S9+5 into UTwente.

Also confirmed Saturday May 24 at 2002 about 5 minutes into so started circa 1956 the 1930v on WA0RCR, 1860 AM, MO, S6 into K9VD Remote, Jerseyville IL.

Also confirmed Saturday May 24 at 2230 on WRMI 15770, S9/+15 into UTwente where it`s aimed.

Also confirmed UT Sunday May 25 from 0325 in WA0RCR, 1860 AM, MO, S9/+12 into N9AZZ remote in IL. When I heard ARRL news start at 0310 after Houston AMSAT running late, I knew WOR should appear a sesquidekaminute later. Next:

1030 UT Sunday WRMI 9955 to SSE [also web-, phonecast];
1900 UT Sunday IRRS 1323-Italy;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160;

1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2296 monitoring: confirmed Sunday May 25 at 2130 on SW Radio, Germany, 3975.002, S8/9 into UTwente.

Also confirmed Sunday May 25 at 2330 on WRMI 9455, S9+10/20 into Georgia SDR, while 7780 is off, and 7570 is TOMBS.

Also confirmed UT Monday May 26 at 0052 the 0030 on WRMI 7780, S9+20/40 yet noisy into S Texas SDR.

Also confirmed UT Monday May 26 from 0301 on Area 51 webcast only; while WBCQ 5130 -85 Hz = 5129.915 was S9+5/12 with a bit of music after JL gotta go until 0301*. Earlier at 0240, 5130- direct was S9+40 = high storm noise level. Next:

1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS 1323-Italy;

1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2296 monitoring: confirmed Monday May 26 at 1957 the 1930 on SW Radio, Germany, 3975.002 S9+10 and a few words behind on 6160.000+ S9/+10 both into UTwente.

Also confirmed UT Tuesday May 27 at 0330 on WRMI 7780, S9+20/30 into S Texas SDR, closer to the azimuth and much better than I can hear it direct.

Also confirmed Tuesday May 27 at 1304 the 1300 on WRMI 9955, S9+10 direct.

Also confirmed Tuesday May 27 at 1421 the 1400 on WRMI 9955, JBA S5 sounds like me. Next:

2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2296 monitoring: confirmed Tuesday May 27 at 2000 on IRRS SW via AM Italia, 1322.995, S9 into UTwente across Europe.

Also confirmed Tuesday May 27 at 2330 on SW Radio, Germany, 3975.002+, S9/+5 into UTwente.

Also confirmed Tuesday May 27 at 2330 on WRMI 9395, S9+15/25 into nearby Georgia SDR, but not making it further to remotes in Iowa, Saskatchewan.

Also confirmed Wednesday May 28 at 1951 the 1930 on SW Radio, Germany, 6160.000, S9/+15; and 3975.002-, S8/9+5 both into UTwente.

Aldo confirmed Wednesday May 28 at 2103 the 2100 on WBCQ 7490 -73 Hz = 7489.927, S6/S9 into Maryland SDR. Next:

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Thanks this week for financial support from Doug Brown, a generous check on a US bank to Glenn Hauser, P O Box 1684, Enid OK 73702 USA: ``Greetings from London ON. Thanks, Glenn for all you do to keep our great hobby alive. Best Regards & 73s``

One may also contribute via PayPal, not necessarily in US funds, to woradio at yahoo.com

WOR podcasts are available several ways, including the last 13 at: https://www.youtube.com/@WorldofRadio
(Glenn Hauser, OK, WOR)

** U S A. WTWW, 1620 UT May 22: George McClintock explains the terrible output of the 9930 transmitter last night, as I reported. There was a serious security problem. Unknown intruder entered the station and turned tuning knobs all over the place. This happened because the operator forgot to turn the alarm on; and the gate at the fence has not yet been hardened, but that project is underway. Called police, but intruder not caught (Glenn Hauser, OK, WORLD OF RADIO 2296)

** U S A. 9917.1 & 9942.9, May 23 at 2157 parasitic spurs out of very strong WTWW 9930 direct. Some modulation is audible on them, not always the case; and apparently a further one circa 9904 but not on the plus side, and not a lot of additional splatter this time (Glenn Hauser, OK, WOR)

** U S A. 9930, May 24 at 2213, WTWW with TOMBS but modulation dropouts a few times every minute averaging maybe 10 seconds each but irregular. Keeps doing it past 2300, making Brother Hystairical even more unlistenable. After 0000 check May 25 seems to have recovered. Recheck just in time at 0104* to hear it go off, and 5920 cut on less

than a minute later. The other WTWW, 5085 was already on (Glenn Hauser, OK, WOR)

** U S A. 5085, May 26 at 0239. WTWW S9+40/50 direct with music. The other WTWW on 5920 also playing other music (Glenn Hauser, OK, WOR)

** U S A. 9917.1 & 9942.9, May 28 at 2216, parasitic spurs out of 9930 WTWW which is S9+40/50, but no serious splatter. Strange that the plus/minus 12.9 kHz are sometimes there, sometimes not; different tunings or different transmitters? Heard before out of 5085 but not 5920, or 9475? (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` WBCQs check, May 23 at 2357, into Maryland SDR: 3265 off, 5130 -79 Hz = 5129.921 S7/S9 IS & ID, 7490 -77 Hz = 7489.923 FKB. 0000 May 24 UT Saturday WTO and ``New pope, new hope``, claims quadricasting on 3265, 5130, 7490 and 9330 -- but NOT, and this is a rerun since the pope is no longer new. Then I check the other frequencies: 9330 still with WLCR, 3265 still off, and strangely 6160v is off instead of some other program as usual this hour. Never mind (Glenn Hauser, OK, WOR)

** U S A. 6160-, May 25 at 0203, this WBCQ is off. For quite a while, its schedule has been very curtailed. Now shown as 01-02 UT Tue-Sat Hal Turner; plus 02-03 Thu Hal; Devil`s Advocate UT Sat 02-03; AAAWWW UT Sat 00-01, and that`s all, but I`ve yet to hear it with the latter (Glenn Hauser, OK, WOR)

** U S A. 17790, May 23 at 1449, S5/S7 with interview mentioning being on Pan American - so WRMI-7 Radio Africa Network is again on air before scheduled *1500; from 1400 now? Much better reception here than on next frequency down, 15770 (Glenn Hauser, OK, WOR)

** U S A. 9395, May 25 at 0203, this WRMI is surprisingly OFF, but 9455 is on with TOMBS. At 0315 check, 9395 back on (Glenn Hauser, OK, WOR)

** U S A. 7505, May 26 at 0546, WRNO on later than usual with music, rap? Unseems gospel, S9+40/45 direct. By 0610 recheck, in Chinese! which must be why it was still on before 0600. Lotsa luck finding a program schedule or much of anything beyond plea for donations at https://www.wrnoworldwide.com/

``Recognizing the need to reach specific language groups, WRNO has taken a significant step by introducing Christian programming in Mandarin Chinese and Hindi.Through our expansion into Mandarin Chinese and Hindi programming, we seek to deepen our commitment to connecting with diverse audiences and overcoming barriers to Christian outreach. By utilizing the unique capabilities of shortwave broadcasts, WRNO bypasses country restrictions and serves as a virtual lifeline for Christians in regions where the practice of their faith is restricted.`` The chances of WRNO reaching China at 06 UT on 7 MHz are minimal. More info on FB? https://www.facebook.com/wrnoworldwide/ - latest items there are from 2020/2019y! (Glenn Hauser, OK, WOR)

** U S A. 4840, May 27 at 0615 UT, some really nice banjo music, probably hymn tunes, S9+30 direct from WWCR; but everything crashes at 0617 when Brother Scare resumes crying out from the grave (Glenn Hauser, OK, WOR)

** U S A. 1660, May 28 at 0622 UT tuneby, immediately hear credit to North Dakota Broadcasters Association, back to Dan Patrick show. So it is KQWB, West Fargo, allegedly called ``Bison 1660``. Normally dominant are KWOD Kansas City or KRZI Waco (Glenn Hauser, OK, WOR)

** U S A. Sporadic E has been possiblizing lots of paths east of here,

nexus over Indiana, May 24 from 2309 UT. See unID 87.7! Yet nothing else in numerous bandscans until at 0125 UT May 25, 93.3 Jack FM in OKC has some unusual CCI to its C&W: mention of ``hospital of Philadelphia`` - not enough to be certain, but a good Es distance and direxion for: WMMR, Philadelphia PA, 16.5 kW, 264.0 m ``everything that rocks`` (Glenn Hauser, Enid OK, WOR)

** VANUATU. 9960, May 28 at 0619, no signal from R. Vanuatu nor on 7260, 7890 or 11835. Ron Howard explains at 0636: ``Radio Vanuatu (9960 kHz) power problems --- May 28 (Wednesday UT), am hearing problems on 9960: 0555 to 0607* UT, with very good signal via SDR remote in New Zealand, till the transmitter suddenly cut off. *0612-0613*, transmitter back on for a minute, till cut off again. 0613+, still silent through 0635. Have notified the station of the problem. - - - - - Appreciate the quick reply from Pryce Aptenbel: "Dear Ron, Thank you for your message and for monitoring our broadcast. Apologies for the disruption – there was a power cut, which likely caused the issue you observed. I'm currently on my way to restart the transmitter and get us back on the air as soon as possible. We appreciate your continued support and patience. Best regards" -- 0730 UT - Radio Vanuatu still silent on 9960. Ron, Monterey, Calif.``

``9960 - No signal heard here at 1030 UT {May 28}. I have been hearing them on this frequency and at this time with fair signals over the past week but nothing this morning. Stephen C Wood - KC1QEM, Cape Cod, Massachusetts`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1420, May 25 at 0132 UT, Meximx dominates. Probably either XEF Juárez or KBHS Hot Springs AR (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1480, May 25 at 0131 UT, Spanish preacher dominating. Of several listed, most likely KLVL Pasadena TX, 5000/500 watts, Radio Vida (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1549.82, May 23 at 0615 UT, again that JBA carrier hetting 1550.00 stations. Mike in Qro. thinks XEREL is too weak to reach Oklahoma, but I think it`s possible as long as it`s away from the center frequency pileup. What we need is an exact frequency measurement of XEREL at local or near-local range. Euro DXers have already measured the Peruvian on 1549.82 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1549.82, May 25 at 0130 UT even on caradio, and this early, the het against 1550s is audible, Mexico, Peru, or what? Can`t measure it but sounds about the same pitch I recall on the bigrigs later at night. And adjacent, lower and louder het below 1540 from KGBC TX as usual but not always (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4849.96, May 22 at 0606, that JBA carrier. I wish some Euromonitors would check it at this hour (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4849.95 approx., May 23 at 0619, the JBA carrier again. Could be harmonic from one mediumwave frequency, 5 x 970 altho would be slightly lower. Around 0500 I checked UTwente, and no trace of a signal there. In case it be an harmonic, might also show on X3 = 2910 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6000, May 27 at 0620, some unreadable JBA talk and music, S8 direct = noise level; off at 0631 recheck. Nothing but RHCuba is listed in Aoki & EiBi; AIR Leh might start at 0630 or 0700 if it were not silent, and not propagable anyway from midday there. RHC would normally be much stronger but hardly modulated in English or maybe Spanish by this hour (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6225.0, May 23 at 0621, beeps = carrier on and off at

the steady rate of 24/minute = every 2.5 seconds. What is this, and why? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. ``The 6938 open carrier is a frequent visitor here, so frequent that I expect to see it. It's been around for many months, maybe a year. Often, it is accompanied by a data transmission starting on 6940 and about 3 kHz wide. On a waterfall, the data looks like a ladder. Usually, the carrier is 30 or 40 dB over the local background noise. Ron Hunsicker`` (via Glenn Hauser, OK, WOR)

UNIDENTIFIED. ``Re: Unid 6938. Ron, I know what you mean, and see that one very frequently. It's military, as far as I know, but the lone carrier on 6938 is different. That one might be associated with intermittent broad band pulses as well that can be seen +/- at least 50 kHz. 73, Walt`` Salmaniw, BC (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9125.20 USB, May 24 at 0625, JBA 2-way M&W with pauses, tonal language maybe Chinese (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9236.0, May 26 at 2204, open carrier with wideband clix JBA in noise level every two or three seconds. Another of these things ending in ---6. What are they? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 13682-13705 approx., May 26 at 2208, OTH radar clickery, peaking S9 amid, but no broadcasters being blasted; altho EiBi shows China could be on 13690, tsk2 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. FM sporadic E paths are being reported further east, so another session on the caradio in case they reach OK, May 24 so at 2309 UT to the caradio for tunearounds. Spanish/Mexican music on 87.7 is the only thing unusual, no signs of Es on higher frequencies in repeated bandscans. 87.7 sounds slightly off-tuned so maybe really 87.74, 87.75 or 87.76 MHz, a `Franken FM`, really channel 6 analog TV audio.

WTFDA FMDB lists 14 -LD stations on ``87.7`` including three in Spanish that are not religious: KXDP-LD Denver CO ``La Invasora``, WTBS-LD Atlanta GA, ``87.7 The Vibe`` and WDCN-LD Fairvax VA, ``Que Onnda`` [sic]. Very little fading up or down, never in solid, so unseems sporadic E. Maybe a local pirate, but never heard anything like it before. $tereo pilot icon occasionally flashes but usually not. BTW, the 87.9 dead air in $tereo carrier surely nearby, is off now, but was on earlier in afternoon.

All the music sounds like same style, vocals with accordion. There are interruptions for ads? mostly YL voices in English, and they are often incomplete, cut off. Long pauses after tunes. Very amateurish operation. What passes for an ID, heard numerous times, sometimes thrice or more in a row, sometimes alone, sometimes mixing with mx, YL sounds like

``de vos es [de?] chilao``

I have no idea if I`m spelling correctly. Could be chilau, referring to a food; or chilao could refer to soil or a campground. At 2315 an ad for Pepper? bras, cutoff; and for Lullabee skin care. Seven-Eleven plug in Spanish, something for $5. Plug for ``Rodríguez report``, parody? Towels from JCPenney. 2336, $3 for a guava drink; ``showing you the way to be a lover again``; 2345 Jim Beam pineapple flavor. 2350 aceite ad. 2357 almost fadeout? But 2401 back with music, mentions Zacatecas before cutoff. I`ve spent almost an hour with this, and no closer to any real identification. Does anyone recognize any of this?

Back online at 0011 UT May 25, the Es DXmap now shows a 99 MHz nexus

over Indiana, numerous paths including as far as Stillwater OK, almost here, and still at 0108, so I go to car for another try at 0123: nothing but the ``ID`` several times with long pauses, and weaker than originally, off at 0129? no it`s back at 0137 (Glenn Hauser, Enid OK, WOR)
